📄 PROFILE

Frontend Developer with 1+ year building production-ready apps using React and Next.js. Delivered projects spanning e-commerce platforms, browser extensions, and ML-integrated web systems. Strong eye for UI/UX detail with hands-on experience in Tailwind CSS, Auth.js, and REST API integration. Computer Science graduate actively seeking frontend roles.

🧠 SKILLS

Languages — Proficient

HTML, CSS, JavaScript (ES6+), TypeScript, JSON

State Management & Utilities — Proficient

Context API, Redux / Redux Toolkit, React Hook Form (RHF), Zod, TanStack React Query, Axios

Tools & Platforms — Proficient

Git, GitHub, VS Code, Postman, npm/yarn, Vercel, Netlify, Chrome DevTools

Frameworks & Libraries — Proficient

React, Next.js, Bootstrap, Tailwind CSS, Material-UI (MUI), HeroUI, ShadCN

Routing & Navigation — Proficient

React Router DOM, Next.js Routing

Other Skills — Expert

Responsive Web Design, UI/UX Principles, Component-based Architecture, Form Validation, Error Handling, State Management Patterns

📁 PROJECTS

FreshCart - E commerce App 🌐, *A modern full-featured E-commerce platform built with Next 16* 2026 – Present

FreshCart is a modern e-commerce web application built to provide a seamless shopping experience. It features an intuitive interface, fast navigation, and a robust set of features tailored for online retail.

Adasa - Blog App 🌐, *A modern photography blog platform built with React and Vite, showcasing beautiful photo galleries, articles, and photography insights.* 2026 – 2026

Adasa (عدسة, meaning "lens" in Arabic) is a photography-focused blogging platform that celebrates the art of visual storytelling. The project demonstrates modern React development practices, including routing, component architecture, and responsive design.

Nexora - Social Media App 🌐, *A modern full-featured social media platform built with React 19* 2026 – 2026

Nexora is a full-featured social media platform where users can connect, share posts, react to content, follow people, and build their network. Built with the latest React 19, TanStack Query v5, and HeroUI, Nexora delivers a seamless and polished experience across all devices.

- Notes App - Note Management System** [↗](#) 2026 – 2026
A modern, full-featured note-taking application built with React and Node.js. Create, read, update, and delete your notes with a beautiful, responsive interface.
- Pestector - Intelligent plant disease detection** [↗](#) 2025 – 2025
An intelligent plant disease detection platform that leverages deep learning to identify plant diseases from leaf images. Built with a modern two-backend architecture for scalability and maintainability.
- NutriPlan - Food, Nutrition & Fitness Planner** [↗](#) 2025 – 2025
NutriPlan is a modern, responsive nutrition planning web application built with vanilla JavaScript ES6 modules and Tailwind CSS. It provides comprehensive meal discovery, barcode scanning, nutrition analysis, and daily food logging features.
- Horizon Themes - VS Code Extension** [↗](#) 2026 – 2026
A deep, immersive dark theme crafted for focus and clarity — paired with Horizon Icons to bring harmony to your workspace.
- COSMOS - Space Explorer Dashboard** [↗](#) 2025 – 2025
A modern, interactive web application that brings the wonders of space exploration to your browser. COSMOS provides real-time space data, stunning astronomy imagery, and comprehensive information about our solar system.
- Modern Portfolio Website** [↗](#) 2025 – 2025
A stunning, fully-featured Arabic RTL portfolio website showcasing modern web development practices. Built with vanilla JavaScript, this portfolio demonstrates expertise in creating beautiful, accessible, and performant web applications.
- EliteHomes** [↗](#), *A responsive real estate landing page*
A modern, responsive real estate landing page built with Bootstrap 5, Font Awesome 7, and custom CSS — designed to help users buy, sell, rent, invest in, and explore commercial properties.
- ContactHub - Smart Contact Manager** [↗](#) 2025 – 2025
A modern, beautiful contact manager web app that brings the classic phone book into the digital age! Remember when every home had a paper address book full of landline numbers? After mastering CRUD operations, it's time to build the same idea — but as a sleek, fully functional Web App (definitely no paper involved).
- What's For Dinner** [↗](#), *Your daily meal inspiration* 2025 – 2025

EDUCATION

Faculty of Computers and Information, 2022 – 2025 | Mansoura University
Bachelor of Computer Science
Studied core computer science concepts including Data Structures, Algorithms, Databases, and Software Engineering. Developed practical experience in web development using JavaScript and React while working on multiple academic and personal projects.

COURSES

FrontEnd Developer *∞*, *Route Academy*

2025 – Present | Online

Route is an Egyptian IT-Training Center founded in 2012

INTERESTS

- Frontend Development & UI/UX Design
- Modern Web Technologies & Frameworks (React, Next.js, Tailwind CSS)
- FrontEnd Web Development (ReactJS & NextJS)
- Open Source Contributions & GitHub Projects
- Learning New JavaScript Libraries & Tools (React Query, Zod, RHF)
- Building Interactive & Responsive Web Applications
- Exploring AI & ML Integration in Web Apps
- Improving Code Quality, Testing, and Optimization

LANGUAGES

Arabic — Native/Bilingual

English — Proficient
